

Foundation

Principles of my work

first to want
white

then to have to
black

equals

drive – compulsion – drive

which means, creating reserves, or to be precise to have reserves

dog active – not reactive

The Voice controls the dog. The leash, remote etc. is only a help to teach that the voice controls the dog.

No training through the helper

Learning

Learning comparison human - dog

To build an indelible memory it requires

human

dog

about 7 repetitions

about 30 repetitions

How does a dog learn

- | | |
|---------|--|
| 1 phase | Learning through habituation and through success |
| 2 phase | Intermittent reinforcement |
| 3 phase | Learning reinforcement through conflict |

Timing: Command = 1.5 seconds later something has to happen = success or compulsion.

Force

Praise

to build up, to stabilize, to calm
